

Activity Sheet 5: 5th Century Costume and Jewellery

BBC
NORTHERN IRELAND

Imagine you are a costume designer and you've been asked to design clothes and jewellery for a 5th century Celtic man and women.

Research what materials and resources would have been available to Celtic men and women at this time and then design your clothes and jewellery with these materials in mind.

TIP!

Use these links to help you with your research. You may also like to visit your local library to find out more.

Draw your designs onto the mannequins on the next page.

When you have finished, write a brief outline in your 'Designer's Notebook' describing your designs and explain the materials that would be needed to make the garments and jewellery.

In your description of your designs remember to provide information about:

- the materials used and where they came from;
- describe the processes the materials went through before being made into a garment.
